

Lloydminster Nexera™ Canola Program

Earn a premium on your Nexera canola production with help from ADM Lloydminster.

Background

As a canola grower, you're looking for great seed and great margins on your production. The ADM Nexera™ program gives you more control with a generation of canola hybrids that offer improved yields and program premiums. You choose which contracting option helps you make the most on every acre.

The Benefits

- Earn a \$50-60/MT CAD premium above our posted generic canola bid on your Nexera production
- Two production contracting options help you manage production
- Multiple contract pricing choices available
- Delivering Nexera is as fast and convenient as delivering generic canola, with off-combine and deferred delivery options available
- Gain access to canola hybrids with higher yield and profit potential than generic canola
- Flexible seed payment options help you manage cash flow

How It Works

1. Select an Acreage or Tonnage contract.*

Acreage Contract:

You select the acres to seed and ADM pays a \$50-60/MT CAD premium on your first 30 bu per acre of Nexera canola, depending on delivery period. Premiums on additional bushels are subject to market demand. You are free to market your overage anywhere, but ADM will have a first right of refusal on your production.

ADM's exclusive Act of God protection applies for the duration of the contract. Ask us for details.

Tonnage Contract:

You select the acres to seed and ADM pays a \$50-60/MT CAD premium on your first 40 bu per acre of Nexera canola, depending on delivery period. Premiums on additional bushels are subject to market demand. You are free to market your overage anywhere, but ADM will have a first right of refusal on your production. If you are unable to fill the contract, simply cover the shortage with generic canola and forgo the Nexera program contract premium on these replacement bushels.

ADM's exclusive Act of God protection applies to the contract tonnage only until it is priced. Ask us for details.

2. Purchase your Nexera™ seed from ADM Lloydminster. Available seed includes:

Roundup® Ready Varieties

- 1022 RR
- 1024 RR
- 1026 RR
- 1028 RR

Clearfield® Varieties

- 2024 CL
- 2026 CL
- 2028 CL

Talk to your ADM merchandiser about how to price your canola using any of our contract choices and check out our flexible seed payment options.

3. Deliver your Nexera canola production during the contracted delivery period and be sure to indicate the load is "Nexera." It's that simple—no other special arrangements or procedures are required.

ADM is not affiliated with The Dow Chemical Company, Monsanto Technology LLC or Dupont Pioneer. Seed information is provided "as is" and any seed warranty (whether expressed or implied) is between the seed company and the grower.
