### Safe Handling Instructions

Milled grain products are not ready-to-eat and must be thoroughly cooked before eating to prevent illness from bacteria. Do not eat or play with raw dough; wash hands, utensils, and surfaces after handling. It is intended as an ingredient used for further processing in poultry, livestock (cattle, horse, swine, sheep, and goat) and aquaculture food. It may be used as a pet food ingredient if subject to a thermal/cooking process as determined necessary by the pet food producer, not intended for human consumption.

### Allergen

Wheat is an allergen

### GMO

There are no transgenic wheat varieties for sale or in commercial production in the United States at this time.
