

2023 Crop Offering Ultra-High Protein Non-GMO Soybean Program Details

Frequently Asked Questions

Seed

Can I plant other varieties of soybeans for this program?

No, this program is specific to growing Benson Hill variety e42P713.

What is a typical yield on this variety?

This unique ultra-high protein variety yields similarly to other commercially available high-protein specialty soybean varieties in the market.

Grain Storage

Do I have to have grain storage on my farm to participate?

No, we have a fall delivery option to the ADM Patoka Elevator.

Grain Marketing

Can I forward price my crop?

Yes, farmers can forward price up to 45 bushels per contracted acre prior to harvest.

Grain Delivery

When and where can I deliver?

ADM Patoka Elevator: Fall 2023

Decatur East Plant: Exact dates TBD but expect shipment windows in Winter 2023, Spring 2024, and Summer 2024.

Buyers Call

Can I choose when I want to deliver?

Space is limited at each location and delivery window. We will fill on a first-come, first-serve basis. Once full, remaining bushels will be Buyers Call.
