

Built to support farm legacies and consumer demand.

North Carolina Programs

Wheat Payments

| PRACTICE | COMPENSATION | REQUIREMENTS |
|---|--------------|--|
| No-Till or Strip Till | \$2/acre | Only applicable on wheat fields planted in 2022. Can be in other federally funded programs. |
| Living Root | \$3/acre | Only applicable on wheat fields planted in 2022. Have a living root established on field year round. (Double cropped soybeans after wheat, cover crop that is harvested) |
|  Nitrogen Balance | \$5/acre | Only applicable on wheat fields planted in 2022. Nitrogen levels must fall within N-Defense safe zone. Scan QR code for more info. |

Standard Practice Payment

| PRACTICE | COMPENSATION | REQUIREMENTS |
|----------------------------|--------------|--|
| Plant a cover crop in 2023 | \$10/acre | Plant a cover crop no later than NRCS accepted date. Previous cover crop practice allowed on field. Can be in other federally funded program. Must have wheat in rotation. |

Requirements for all:

- 1 Must not be part of any private regenerative ag or carbon program on acreage signed up
- 2 Completion of enrollment survey/agreement (5-10 min)
- 3 Completion of data collection with FBN and closing survey (15-45 min)
- 4 A small subset of farmers will be randomly selected and compensated \$1,000 for onsite verification of practices

Important Dates:

Enrollment Deadline for Planned Practices: November 17, 2023

Data Collection Deadline: December 1, 2023

Payment Date: May 31, 2024

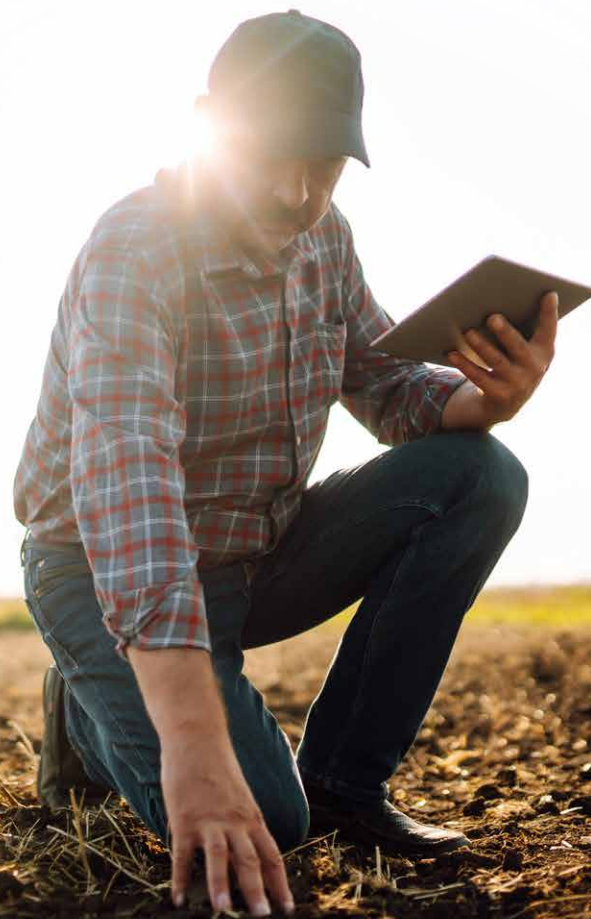

Increase your regenerative ag practice revenue with these opportunities.

Information on Technical Assistance Partner

Practical Farmers of Iowa's mission is equipping farmers to build resilient farms and communities. Practical Farmers of Iowa is an inclusive organization representing a diversity of farmers. Farmers in our network raise corn and soybeans, hay, livestock large and small, horticultural crops from fruits and vegetables to cut flowers and herbs, and more. Our members have conventional and organic systems; employ diverse management practices; run operations of all sizes; and come from a range of backgrounds. These farmers come together, however, because they believe in nature as the model for agriculture and they are committed to moving their operations toward sustainability. To learn more about PFI visit: <https://practicalfarmers.org/> or scan the QR Code.
